Letter of recommendation

21 September 2011

We believe that good images of our country are essential in the promotion and branding of the Faroe Islands and we are therefore constantly looking for new photographers who can see the Faroe Islands through their fresh and unbiased eyes.

Kimberly Coole travelled to the Faroe Islands this spring. We are very pleased with the result of her work and the fantastic new images she has given us. The pictures she has taken capture the essence of the Faroe Islands and are already part of the images we use in the promotion of our country and will be for a long time.

In addition to being a brilliant photographer Kimberly Coole is also very easy and flexible to work with. Changes in the programme and new wishes were part of her assignment for us and her positive attitude and energy was very inspiring.

We would be happy to give Kimberly Coole our highest recommendations and to work with her again in the future.
