

# Jordan Tourism Board

Date: August 4, 2011

As a tourism board, we rely heavily on beautiful pictures to promote our destination. Pictures speak a thousand words; they do most of the talking for us to convince travellers to journey to our country. As such, we expect to use only the best pictures to portray our country.

We were very pleased to work with Kimberley Coole. Not only is she professional and easy to work with, she has a unique photographic eye that can capture exceptional images. She was open to suggestions and fully understood what we needed for our purposes, yet was able to deliver work that far exceeded what we had hoped for.

Her outstanding skills have delivered us pictures that are timeless; ones which we will be able to use for a long time, not only because of their outstanding quality, but because they represent our destination perfectly. She comes highly-recommended and we hope to work with her again in the future.

Nayef H. Al Fayez

Managing Director
